Interrogation of ... OTTO SALMAN

by ... Lt.(j.g.) John B. Martin

on ... 12 November 1945 (PM)

An affidavit containing a summary of pertinent testimony given by Salman was reviewed with him and he was asked to sign after making such changes as he felt necessary to make it complete and correct. This statement will be useful to the persons working on the "War Crimes" aspect of the case (Section IV) and to persons concerned with the prosecution against Raeder and Doenitz (Section V), since it contains admissions with regard to the extent and scope of the sink-at-sight policy.
