The Management of the Foreign Organization (A.O.)

Department for Foreign Commerce.

January 10, 1945

To
Commercial Councillor Waibel
I.G. Farbenindustrie A. S.
Frankfurt/M.

Dear Mr. Waibel,

At first I wish you, dear member of the party Waibel a happy New Year hoping that it will bring us much nearer to the final victory and to the reconstruction therewith. I have been glad that also in the past year our friendly collaboration in all questions concerning the I.G. lasting already many years has proved to be so efficient. I am aware of this being especially your merit.

I have just received a letter from my confidant in Argentina being still in Portugal, as you know, and from which I learn that there must still be a possibility of sending a communication to your agency in Argentina to the effect that by no means German employees should be discharged. This statement is less destined to your branch office, but for Mr. Homann as the president of the German Chamber of Commerce. An information of this kind would circulate with the German firms over there in a suitable way and not fail to produce the desired impression.

I was told that there is still a way left known to Leverkusen as to how such a message might be transmitted to your branch office at Buenos Ayres. With regard to the aforesaid I should be grateful to you if you would do your best to send such a communication to Buenos Ayres.

With kind regards

signed G. Christians

We would ask you in the name of Commercial Councillor Waibel to tell us whether there is still a possibility left of sending a communication to Mr. Homann, Argentina.

A wish of the A.O. is concerned to the effect that another recommendation is forwarded to Mr. Homann in his capacity of a President of the German Chamber of Commerce to induce the German firms not to discharge German employees at any rate.
