

OFFICE OF US CHIEF OF COUNSEL  
APO 403, US ARMY  
INTERROGATION DIVISION

Nurnberg, Germany.

✓  
Brief of  
Interrogation of Hildegarde BRUNINGHOFF

by

Major J. J. Monigan,

25 October 1945.

The interrogation was confined to certain papers which the witness had prepared at the request of Mr Dodd. She was extremely cooperative but appears to know little of substantial interest or value. Most of the information that she has learned concerning the DAF and the functioning of Ley's office is relatively superficial and were it not for Ley's death it would be my recommendation to release her. It is suggested that the matter of her release be postponed until the Ley affair has quietened down, then it should be accomplished.
