OFFICE OF U. S. CHIEF OF COUNSEL  
APO 403 U. S. ARMY

4 October 1945

MEMORANDUM FOR: Mr. Justice Jackson

Subject : Evidence of British, French and  
Soviets.

1. It may be of interest to you to know the total evidence submitted and available by our Allies as follows:

British - As of yesterday, they have assembled a total of ninety-six (96) documents, exclusive of the basic decrees. Many of these have already been assembled in our files.

French - M. Mounier advised me this morning that they have no evidence here but expect some files to be sent next week.

Soviet - You have already seen the list of evidence submitted by the Chief Prosecutor for the U.S.S.R., dated 17 September 1945, containing thirty-two (32) items. We have some of the same evidence, and in many cases better individual items of evidence. For example, with reference to item 10, entitled Photostat of "The Green Portfolio of Goering", we have just located the original of that document and it is now in our central files.
